

Nuance VSuite Speech Software Shipping on Dell Mini 3 Android Line Up in China and Brazil

*Nuance VSuite Lets Users Speak Commands for Fast, Easy Access to Key Features on
Dell Mini 3i from China Mobile and Mini 3iX from Claro*

Burlington, MA, January 27, 2010 – Nuance Communications, Inc. (NASDAQ: NUAN) today announced that [Nuance VSuite](#), the Company's pervasive embedded speech software for device command and control, is currently shipping on the highly anticipated Dell Mini 3i smart phone from China Mobile, the largest telecommunications company in the world with more than 500 million customers, and the Dell Mini 3iX from Claro, which serves more than 42 million people in Brazil as part of the America Movil network. With Nuance VSuite, Dell's new innovative Android-based smart phones allow users to easily dial contacts and numbers, as well as search, discover and launch a variety of applications all by using their voice.

Dell's innovative multi-touch Mini 3 Android smart phone line up takes advantage of Nuance VSuite's flexibility and full compatibility with Android to deploy voice command and control capabilities that make it even easier to place calls, and find and access a variety of applications and services including games, the calendar, music player, and more. Users can even initiate a text message and check the status of their voicemail with simple voice commands. And with support for a variety of languages, including Traditional Mandarin, Traditional and Simplified Cantonese, and Portuguese, Mini 3i and Mini 3iX users across China and Brazil are able to experience the power of mobile speech.

"Voice capabilities are a key complement to our multi-touch experience, offering users a natural and intuitive way to access a variety of applications and features to get the most out of their device," said Bill Gorden, Dell GM for Smart Phones. "We focus on creating partnerships that make the most of a customer's mobile experience, on any network, and using any application."

"We want to ensure that users worldwide can take advantage of our mobile speech capabilities, which is why we've worked hard to ensure Nuance VSuite is not only platform agnostic, but works exceptionally well on the Android platform," said Michael Thompson, senior vice president and general manager, Nuance Mobile. "Moreover, Nuance VSuite's support for a broad number of languages enables partners like Dell to deliver speech in many parts of the world, including China and Brazil. And with the Dell phones sure to make an impact among China Mobile's and Claro's significant subscriber bases, we're continuing to move the global needle on speech proliferation."
