OmniPage 17

The Most Accurate OCR Available

OmniPage 17, the world's best selling OCR software with 99%+ accuracy, is the perfect solution for converting paper

and PDF files into documents that you can edit on your PC. OmniPage 17 works with today's scanning technology to give you up to 40% more accuracy over previous versions and competing products. Capture and recognize text from JPGs on your digital camera or cellphone. And the new Direct OCR buttons for Word, Excel, PowerPoint and Outlook let you work faster than ever from your favorite Windows applications.

"I received my first copy of OmniPage (SE) as a part of a bundle with my scanner. I thought it was all I needed. I have found that OmniPage 17 is significantly more accurate and it has saved me a lot of time. I highly recommend that people upgrade from the software included with their scanner to OmniPage 17."

– Søren Hermansen

NEVER RETYPE ANOTHER DOCUMENT

Don't waste your time recreating information trapped on paper. Typing a typical 20 page document (6,000 words) takes about 150 minutes for the average person. OmniPage can recreate the same 20 pages as an editable digital file in your favorite format in less than 2 minutes. Plus you can edit directly within the program for easier outputting.

IMPROVED FEATURES = BETTER FORMATING, LESS EDITING

OmniPage® 17 boasts a host of new features to make your job even easier. Support for binarization for scanned images technology, included in today's scanners, means more characters recognized right from the start, less editing for you. Improved OCR engines recognize vertical text, even Chinese, Japanese and Korean characters. And, OmniPage 17 is faster than ever, so you can get more done than ever before.

GREAT FOR PROFESSIONALS ON THE GO

The 3DC technology in Omnipage 17 lets you to recognize text from JPGs on your digital camera, cellphone or portable scanner. So now you can capture text on the go. You can even save and listen to your output on your iPod® or read on your Amazon® Kindle® book reader.
