

Using QuickStart

The Dragon QuickStart taskbar tray icon gives you quick access to Dragon and recent users. Right-clicking the QuickStart icon displays the QuickStart menu.

NOTE: This option is installed at the end of Dragon setup process.

When in QuickStart mode, Dragon launches automatically at system startup time and adds the Dragon icon to the Windows taskbar

To enable QuickStart:

Two ways to enable QuickStart mode are:

- During installation. An installation screen includes the option to enable QuickStart.
- By clicking the Dragon icon in the upper left corner of the DragonBar and selecting Tray Icon Only Mode. See Using QuickStart on page 46 for more information.

To shut off/permanently disable QuickStart:

- In the DragonBar menu, select Tools > Options and click the Miscellaneous tab of the Options dialog box.
- De-select Launch in QuickStart mode on Windows startup.

Redisplaying the DragonBar

To display the DragonBar while the product is running in QuickStart mode, right-click on the microphone icon in the QuickStart taskbar tray and select Restore Previous DragonBar Mode.

Temporarily Disabling QuickStart

To temporarily disable QuickStart, right-click the QuickStart taskbar tray icon and select Exit. This action exits Dragon and removes the QuickStart tray icon from the Windows taskbar. When you re-start Windows, the QuickStart taskbar tray icon re-displays.

Accessing QuickStart

You access *QuickStart* by right-clicking the Dragon *QuickStart* taskbar tray icon. This action displays the *QuickStart* menus, which parallel the menus in the DragonBar.
