

Resizing and Closing Windows

To resize and close windows, say "Click" and then one of the following window commands:

NOTE: "Click" is required for the Control menu commands.

SAY THIS...

Click Minimize *or* Click Control Menu
(*pause*) Minimize

Click Maximize *or* Click Control Menu
(*pause*) Maximize

Click Restore *or* Click Control Menu
(*pause*) Restore

Click Close *or* Press ALT F4

Press CTRL F4

Click Start Menu *or* Click Start *or*
Press CTRL ESC

TO...

Minimize the active window.

Maximize the active window.

Restore window to previous size.

Close the active program.

Close the active document, not the
whole program (works in many programs).

Open the Windows® Start Menu.

TIP: If you have trouble getting Dragon to recognize any of the window commands, you can first open the Control menu by saying "Click Control Menu," then say the command.
