

Dictating Email and Web Addresses

Dictate e-mail and Web addresses as you would normally say them. Dragon automatically formats them for you.

Here are some guidelines for dictating e-mail and Web addresses:

- When you say "h t t p" or "w w w," Dragon knows to format the next words you say as a Web address
- Say the following abbreviations by pronouncing them as words: "co," "com," "gov," "mil," "net," and "org."
- Say the following abbreviations by saying each letter:
"a c," "b n," "c a," "e d u," "ie," "h k," "i d," "i n," "j p," "m y," "p h," "s g," "t h," and "u k."
- Use the "No Caps On" and "No Caps Off" commands to enter an e-mail or Web address in all lowercase letters.

For more information about controlling capitalization, see Dictating consecutive words in all lowercase letters

TIP: You can create Text and Graphics custom commands for e-mail and Web addresses you use often. See the online help for more information.

Dragon Medical can automatically format web and e-mail addresses as you dictate them. For more on how to set up automatic formatting, see Automatic formatting of dates, times, and telephone numbers.
