# ≡ Summation Connector for eCopy™ ShareScan®

**Quick to Install**

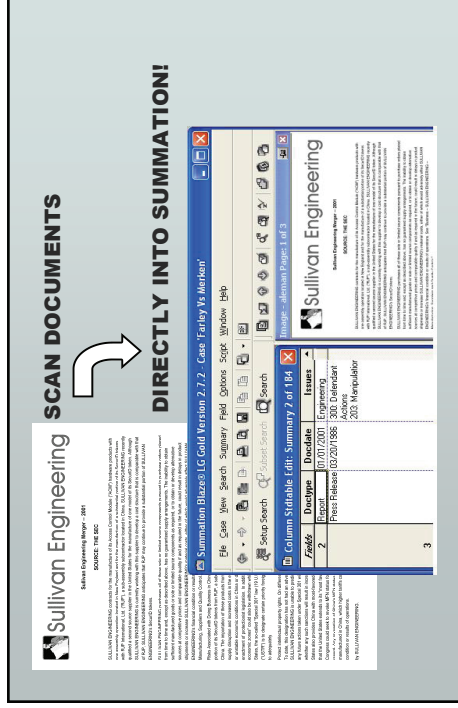

**Easy to Use**

**Scan Directly  
Into Summation**

**Less  
Outsourcing**

**Create DII  
Volumes Instantly**

**Organize  
Documents into  
Session Folders**

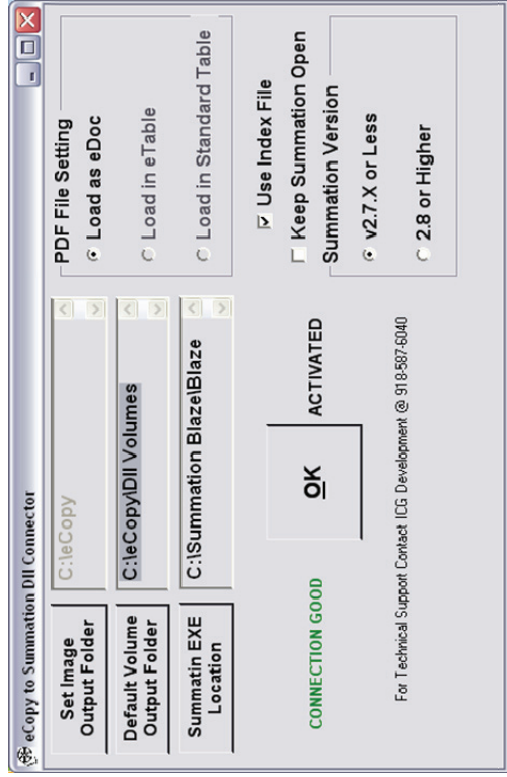

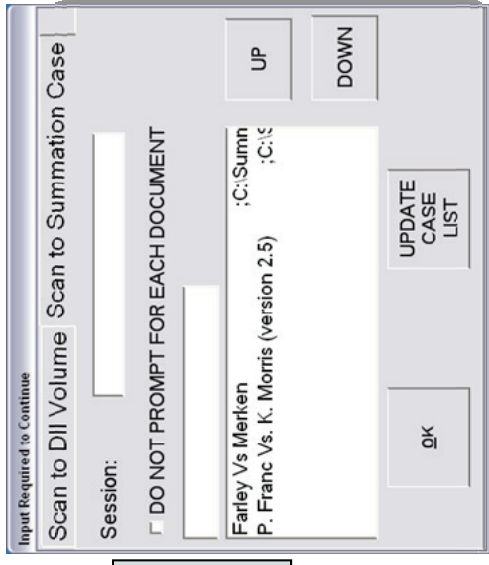

## Custom Interface

We can interface eCopy and your copier, scanner or Multi Function Device scanning output to your litigation support software. Imagine directly inserting your document images into Summation, Time Matters, CaseMap or your litigation management system as easily as copying a document.

Just tell the connector which case to use, it inserts the image and creates the summary record for you!

Three easy settings and you are ready to go!
