

# Mobile access for report signing and clinical search

PowerScribe Mobile Radiologist provides anywhere/anytime access to PowerScribe on iOS and Android devices.

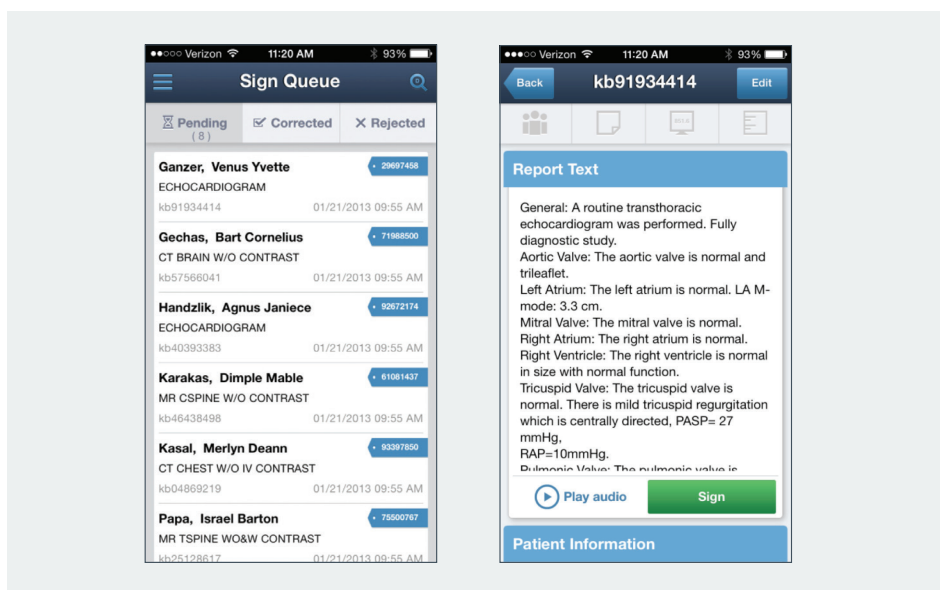

PowerScribe Mobile Radiologist enables medical imaging professionals with iOS and Android devices to securely create, review, edit, and sign PowerScribe reports and addenda using secure speech-enabled workflows on the go. Access is included with PowerScribe One, Nuance's new cloud-enabled reporting platform. PowerScribe 360 Reporting customers may purchase access to PowerScribe Mobile Radiologist.

## Sign queue

PowerScribe Mobile Radiologist provides authorized users with secure access to their PowerScribe reporting sign queue. Radiologists can easily view, edit, and securely sign off reports from the convenience of their mobile devices and receive push notifications when new reports arrive in their queue.

## KEY BENEFITS

- **Provides secure access** to create, search, edit, and sign reports and addenda.
- **Delivers convenient access to clinical report content anywhere, anytime**—including notification alerts when a new report is ready for signing.
- **Enhances patient care** through more timely communication back to referring physicians.
- **Accommodates resident/attending workflows** for attestations and preliminary reports.\*
- **Supports structured documentation** with customizable field choices.\*
- **Streamlines access and optimizes usability** with biometric authentication, convenient management tools, and customizable features.

\* Requires PowerScribe One or PowerScribe 360 Reporting v4.0 SP1 and above.

### Worklist access

PowerScribe Mobile Radiologist provides authorized users with secure access to their reporting worklist.

Radiologists can securely create new reports or addenda or edit existing reports or addenda from the convenience of their mobile devices.

### Expanded mobile app features for added convenience\*

- Edit custom field values for structured reports
- Select a specific attestation statement
- Create, send, and sign preliminary reports as needed
- View all associated accession numbers

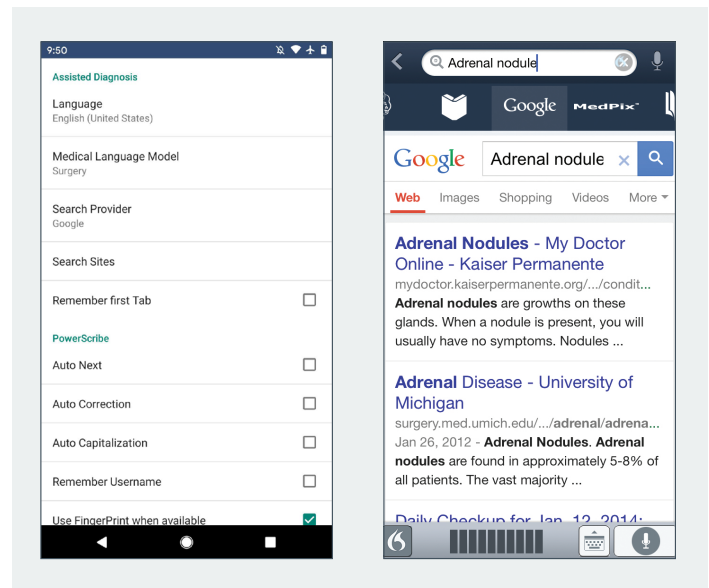

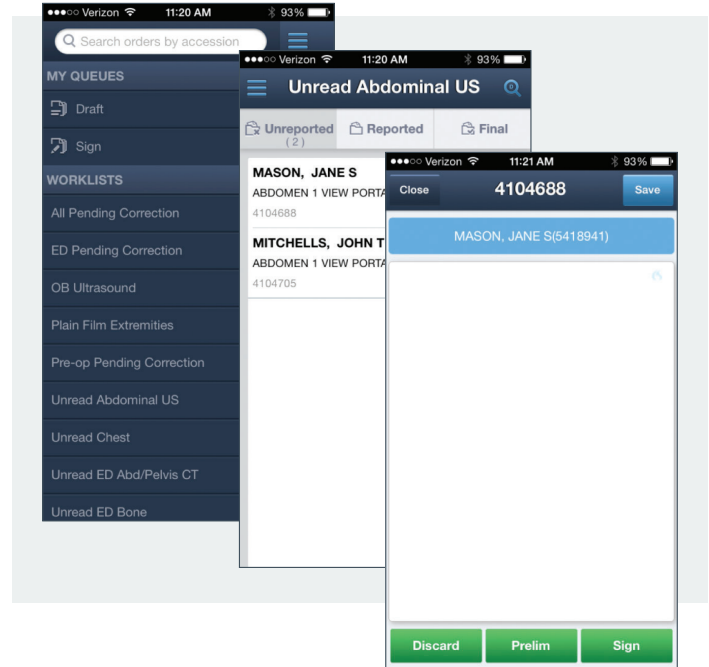

### Assisted diagnosis

Radiologists can quickly access radiology-specific reference materials to search medical terminology, find similar cases, access the latest medical research, and read top news stories in imaging. Radiologists simply speak their search queries and get simultaneous results from a variety of top websites and medical content sources including:

- STATdx
- Atlas
- MEDPIX Teaching File
- AJR
- NLM PubMed3
- Google
