projected increase in knee arthroplasties by 2030

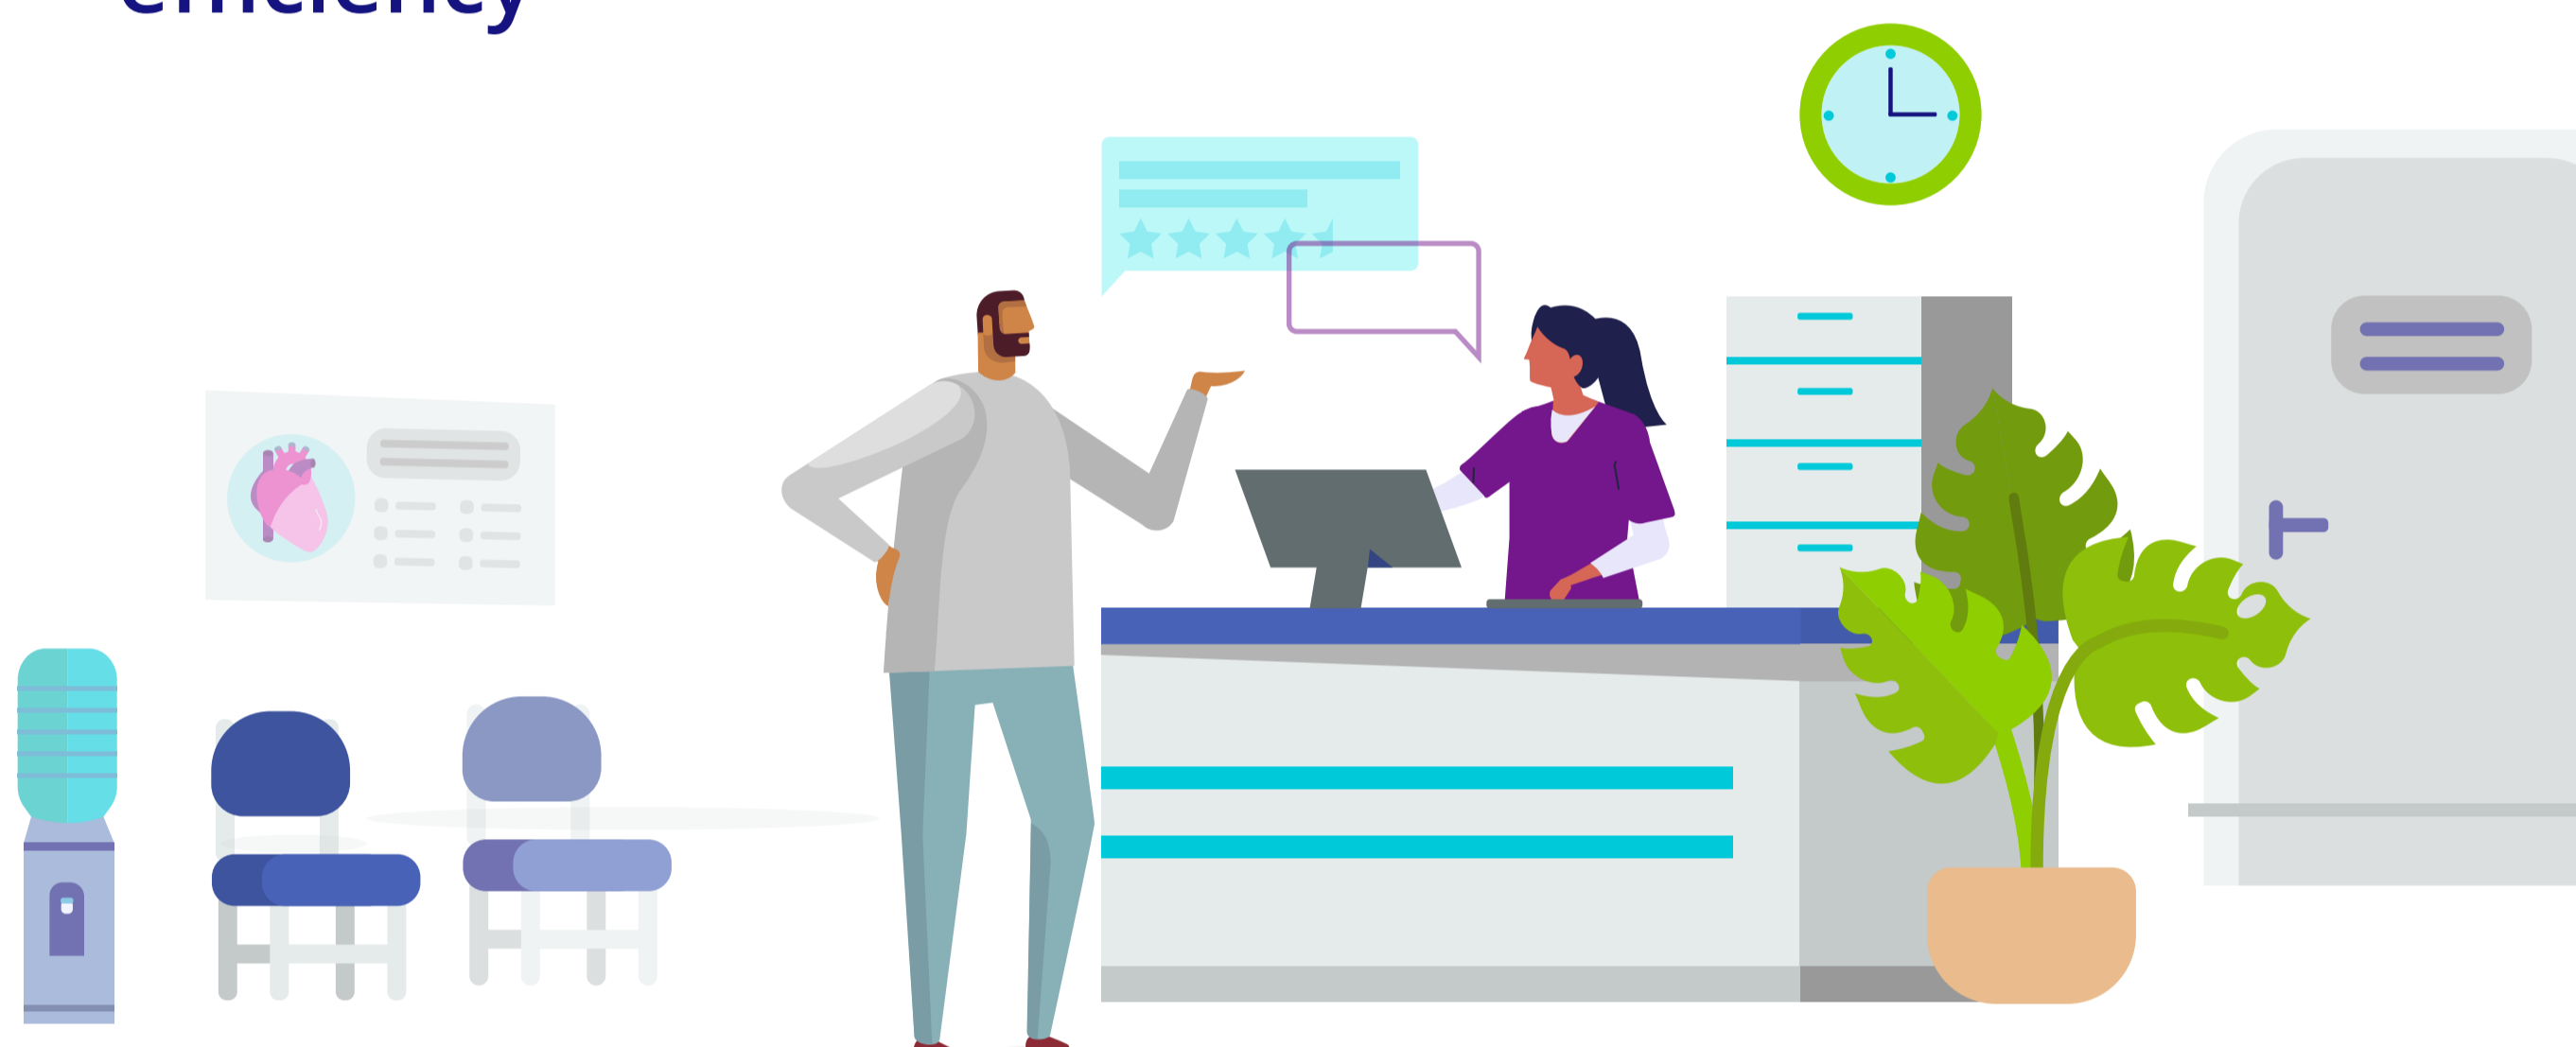

50%–60% of orthopedic surgeons are burned out — 20% higher than surgeons in general

What are you doing about your orthopedic surgeon shortage?

Meet the Nuance Dragon Ambient eXperience (DAX)

Automatically document care with clinical documentation that writes itself™

1 Increase operational efficiency

97% pleased with note turnaround time

44% reduction in documentation time

3 appointments added per clinic day, on average

// I would probably spend six to eight hours a week documenting. **My time has been cut in half, if not by two-thirds.** Spending an extra five minutes on every patient, if you've got 30, 35 patients, **that's a lot of time.**

Dr. Scott Vincent
ORTHOPEDIC SURGEON,
NEBRASKA MEDICINE

// **Having documentation automatically generated is unbelievable.** I have better eye contact, and I don't have to type notes while the patient is talking. **To be able to put everything down, say I'm done, and go home is probably the best benefit."**

Dr. John Klekamp
ORTHOPEDIC SURGEON,
BONE AND JOINT INSTITUTE OF TENNESSEE

2 Boost physician satisfaction

97%

Orthopedic surgeons would be disappointed if they no longer had DAX

82%

Orthopedic surgeons state DAX improves documentation quality

71%

Orthopedic surgeons report better work life balance with DAX

8 out of 10

Orthopedic surgeons recommend DAX

3 Improve the patient experience

83%

say their physician is more personable and conversational

81%

say their physician is more focused

75%

say their physician spends less time on the computer
