

# Mobile access for report signing and clinical search

Instant and easy access.

PowerScribe Mobile Radiologist enables medical imaging professionals with iOS and Android devices to securely sign, create, or edit PowerScribe reports and addenda using secure speech-enabled workflows.

## Sign queue

PowerScribe Mobile Radiologist provides authorised users with secure access to their PowerScribe reporting sign queue. Radiologists can easily view, edit and securely sign off reports from the convenience of their mobile devices and receive push notifications when new reports arrive in their queue.

## Worklist access

PowerScribe Mobile Radiologist provides authorised users with secure access to their PowerScribe reporting worklist.

Radiologists can securely create new reports or addenda or edit existing reports or addenda from the convenience of their mobile devices.

## Assisted diagnosis

Radiologists can quickly access radiology-specific reference materials to search medical terminology, find similar cases, access the latest medical research and read top news stories in imaging. Radiologists simply speak their search queries and get simultaneous results from a variety of top websites and medical content sources.
