

# Transform the radiology reporting experience with PowerScribe One

Powerful workflow reporting increases efficiency and improves patient outcomes.

PowerScribe One delivers an unrivaled radiology reporting experience that reduces fatigue and saves clicks.

## Harness AI to deliver value

PowerScribe One improves productivity addressing inefficiencies, inconsistent recommendations, and failed follow-ups. It harmonises applications radiologists use every day, and automates workflows, so radiologists can focus on the patients.

- **The power of structured data.** Continuous learning and context-aware language understanding convert text into structured data to expand interoperability.
- **The power of integration.** Benefit from deep integrations between PowerScribe One, imaging modalities, and the PACS, RIS and EMR systems radiologists use every day. Real-time data sharing reduces redundant data entry and potential for errors to maximise productivity and report quality.
- **The power of reporting with an accurate speech recognition technology.** Inbuilt best-in-class Nuance speech recognition technology tuned for radiology drastically improves report generation workflow with better quality and faster turnaround.

---

## KEY BENEFITS

- **Improves healthcare professional satisfaction and combats burnout** with a streamlined workflow
  - **Increases productivity** by reducing errors and minimising redundancy
  - **Ensures follow-up consistency** with clinical guidance and quality checks
  - **Enhances communication** across the organisation by intelligently sharing discrete data among systems and platforms
  - **Supports reporting** with an accurate speech recognition technology tuned for radiology
-

A radiology reporting system that allows creating structured documents with ease, efficiently captures reporting data and facilitates the communication.

#### Unparalleled Speech

Provides unparalleled speech recognition accuracy.

#### Clinical Guidance

Real-time decision support based on report context.

#### Tailored templates

Creates consistent and structured radiology report with tailored templates and macros for each procedure.

#### Various radiologist-specific queues

Display of the radiologist's recently reported exams easily accessible in case of referral call, and an own sign queue.

#### Quality Check

In-line detection and flagging of report inconsistencies and errors.

#### Mobile Radiologist

Secure, voice-enabled mobile access for report viewing, editing and signing on the go.

---

“PowerScribe One is delivering on its promise to improve our reporting experience. Our reports are better, and our radiologists are happier. There’s less repetitive and error-prone data entry, our content is more accurate and consistent, and our referring physicians and patients benefit as a result.”

— Terence Matalon, MD, FICR, FACR Radiology Chairman  
Einstein Healthcare Network, USA
