

Capture the complete patient story naturally and efficiently.

Advanced speech-driven clinical documentation with secure, convenient, and comprehensive support across the care continuum.

Fast, flexible, and future-proof

Built on a modern architecture, Dragon Medical One, the #1 conversational AI workflow assistant and documentation companion, empowers clinicians to create comprehensive clinical documentation.

- **Unrivalled accuracy.** Sophisticated speech capabilities allow you to dictate high-quality notes. Achieve 99% accuracy, including automatic accent detection and audio calibration, with no voice profile training required.
- **Dictation done better.** Advanced speech with natural language commands promotes an efficient approach to documenting care before, during, and after the patient consultation. Clinicians decide how and where documentation gets done—from dictating at the cursor to using an integrated dictation box, as well as modern browser support.
- **Autotext.** Reduce time and eliminate repetitive data entry by automating how commonly used content and information is added to clinical notes. Customised templates can be shared across users, departments, and organisations.
- **Smartphone mic.** When paired with PowerMic Mobile, any workstation becomes a dictation station, giving clinicians freedom to document notes using their smartphone as a secure wireless microphone.
- **Consistent voice experience.** Easily manage licenses, deployments, and default settings to ensure an efficient, familiar, and predictable experience across care settings, devices, and apps.
- **Industry-leading architecture.** With remarkable responsiveness and resilience, this - GDPR compliant and ISO 27001 - certified solution enables broad integration and seamless support for both browser and web-based EPRs—giving you the flexibility you need in the environment you want.

Ranked #1 Best in KLAS:
Software & Services award for
4 consecutive years, 2021-2024,
Dragon Medical One
is secure, trusted,
and proven.

Delivering better productivity, efficiency, and quality

98% of clinicians recommend Dragon Medical One

50% less time spent on documentation

100 million fewer clicks per day

54% increase in optimised user productivity

8 out of 10 clinicians agree that Dragon Medical One improves overall documentation quality

Hosted within Microsoft Azure data centres in France

Dragon Medical One is hosted within Microsoft Azure in France supporting the high availability, business continuity, and security demands of Ireland.

Ease access for an improved workflow experience

Using voice capabilities, Dragon Medical One alleviates the administrative burden on clinicians. By reducing repetitive tasks and easing information access, clinicians can spend less time on documentation—and more time with patients.

Custom capabilities

Create your own voice experience by automating tasks such as EPR navigation, orders, and signing notes. Go beyond clinical workflows to draft personal emails, navigate Microsoft Office documents, and search the web.

Boost efficiency and improve performance

Use analytics to track and monitor usage trends while maximising individual and group-level performance on regular basis. Identify opportunities for ongoing improvement and measure performance against hundreds of thousands of users across all healthcare organisations.

When people aren't talking to Dragon Medical One, they're talking about it

"Dragon Medical One has had a big impact on the efficiency of getting my letters done. I am now able to send my letters within 24 hours—or even instantaneously if there are no blood results to be waited upon. This compares with the pre-speech recognition era where letters took 2 weeks or even longer to be completed."

— Dr Paul Altmann,
Chief Clinical Information Officer
Oxford University Hospitals
NHS FT, UK

"The extra time I save is between one and two hours a day, and it's mainly my medical assistant who no longer has to deal with all the correspondence and reports."

— Dr Amir Hanna, Pulmonologist,
Marie-Lannelongue hospital
