

Nuance Power PDF Advanced

The smart choice for serious business needs

Gain control of all your PDF conversion, editing, forms and collaboration processes for maximum productivity

Nuance Power PDF™ Advanced makes it easy for businesses to gain control over PDF workflows in every department and for every use with the ability to create, convert and assemble industry-standard PDF files with superior accuracy. It features the richest set of capabilities for collaborating and securely sharing PDF files with colleagues or customers. Power PDF Advanced is easy to install and customise for the users' business needs. It delivers performance and value as never before, freeing users from the compromises of other PDF applications.

Power PDF Advanced advantages

Microsoft Windows 10 touch-enabled device support

Provides the convenience to navigate, draw annotations and type using a tablet and pen or a finger. It supports Microsoft Surface and other touch-enabled devices and includes a "Touch mode" option that optimises the size of toolbars and tool icons so they are easier to press and navigate with the user's finger.

Optimum navigation experience

Offers a modern, intuitive user interface that is modeled after the acclaimed Microsoft Office ribbon interface and minimises the learning curve and maximises productivity. The Quick Access Toolbar allows users to create shortcuts to their frequently used features and capabilities in Power PDF.

Accurate OCR and file conversion

Precisely recognises scanned text and faithfully reproduces complex layout with columns, tables and graphics. Power PDF includes an OCR proofreader tool that allows users to see and correct the text results, so the PDF documents are perfectly searchable.

Productive document review and mark-up

Dynamic stamps and a wide range of commenting tools give users advanced functionality for efficient document reviews and collaboration.

Advanced support for PDF forms

Power PDF can handle all types of PDF forms that are available on the web, or used by organisations and government agencies for collecting information. Users can take advantage of Power PDF to fill out, save and send complex forms, such as those created by Adobe applications.

Key benefits

- Create and assemble PDFs easily from any application.
 - Accurately convert PDFs into editable Microsoft Office documents.
 - Enhance document security with powerful encryption, digital signatures and rights management.
 - Work with PDFs on touch-enabled portable Windows 10 devices.
 - Enjoy the same navigation experience as in Microsoft Office 2016 or former versions.
 - Increase productivity with automated workflows.
 - Work with any PDF form.
 - Touch up and edit PDF content.
 - Streamline document reviews and collaboration.
 - Connect directly with document management systems.

The streamlined ribbon interface of Power PDF Advanced

Benefits of Power PDF Advanced

Create and assemble PDF files easily from any application

Instantly create 100% industry-standard PDF files with security options that are fully compliant and compatible with all PDF viewers. Combine files and remove or replace pages with drag and drop ease.

Archive important emails as PDFs

Save Microsoft Outlook and Lotus Notes emails and complete email folders as PDF files together with their attachments and with links preserved.

Don't retype your documents

If you must work with PDF documents in other applications, don't waste valuable time recreating them – convert them. Complex layouts with columns, tables and graphics are faithfully reproduced in Microsoft Word, Excel, PowerPoint and Corel WordPerfect documents.

Utilise enterprise level PDF security and rights management

Password-protect PDF files with secure 128-bit or 256-bit AES encryption and permission controls. Apply customised protection to PDF documents using Microsoft Active Directory or Microsoft Azure Rights Management Services. Use the advanced redaction capabilities to remove sensitive data for safe, secure document sharing.

Boost productivity with automated workflows

Automate and simplify routine document scanning, capture, conversion and redaction workflows. Utilise Power PDF's watched folder capability to convert several Microsoft Office documents into PDF files automatically.

Share network files

Supports NetDocuments, OpenText eDOCS, HP WorkSite, Livelink, OpenText Enterprise Connect, NetDocuments, Worldox, EMC Documentum, Xerox DocuShare, Therefore, Office 365 and SharePoint Document Management Systems (DMS).

Connect directly with document management systems

Check out and check in PDFs directly to the most popular document management systems on premise at your location or located in the cloud. Access them directly from the Open and Save menus of Power PDF.

System requirements

- A computer with an Intel Pentium 4, higher, or equivalent processor.
- Supported operating systems:
 - Windows 10; 32-bit and 64-bit Editions
 - Windows 8.1; 32-bit and 64-bit Editions
 - Windows 8; 32-bit and 64-bit Editions
 - Windows 7; 32-bit and 64-bit Editions with Service Pack 1
 - Windows Server 2008 R2, 2012 R2 (Citrix, Active Directory, Remote Desktop Services). Minimum of 5 VLA Licences required.
- 512 MB of memory (RAM), 1 GB recommended.
- 700 MB of free hard disk space for application files; additional space required for temporary installer files and for additional user interface languages .
- Sound card is optionally required for using the functionality of the supplied Text-To-Speech Engine and a noise-cancelling headset microphone is needed for using the Dragon Notes feature.
- Web access needed for product registration, activation, Dragon Notes and obtaining live updates for the program.
- Microsoft .NET Framework 4.0. If it is not detected, it installs with the product.

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements.
