

Nuance Power PDF Standard

The smart choice for all you do with PDF

Gain control of all your PDF conversion, editing and collaboration processes

Nuance® Power PDF Standard makes it easy for demanding users to gain control over PDF files with the ability to create, convert and assemble industry-standard PDF files with the right features for searching, editing and sharing through their favourite cloud service. Power PDF is the next-generation PDF solution that supports touch-enabled Windows 10 devices so users can be productive on the go or at their desk. It delivers all the performance and accuracy they expect from Nuance at a value that's hard to beat. Free users from the compromises of limited or restrictive PDF software with Nuance Power PDF Standard. It is the ideal solution for mobile individuals and small business users who need a fast and versatile PDF solution that addresses the everyday needs for efficient document creation and exchange.

Power PDF Standard advantages

Microsoft Windows 10 touch-enabled device support

Provides the convenience to navigate, draw annotations and type using a tablet and pen or a finger. It supports Microsoft Surface and other touch-enabled devices and includes a "Touch mode" option that optimises the size of toolbars and tool icons so they are easier to press and navigate with the user's finger.

Optimum navigation experience

Offers a modern, intuitive user interface that is modeled after the acclaimed Microsoft Office ribbon interface and minimises the learning curve and maximises productivity. The Quick Access Toolbar allows users to create shortcuts to their frequently used features and capabilities in Power PDF. The "Find a tool" search capability enables them to quickly find any tool or functionality in the application.

Accurate OCR and file conversion

With the industry's best conversion technology, it precisely recognises scanned text and faithfully reproduces complex layouts with columns, tables and graphics. Power PDF includes an OCR proofreader tool that allows users to see and correct the text results, so the PDF documents are perfectly searchable.

Productive document review and mark-up

Dynamic stamps and a wide range of commenting tools give users advanced functionality for efficient document reviews and collaboration.

Key benefits

- Create and assemble PDFs easily from any application.
 - Accurately convert PDFs into editable Microsoft Office documents.
 - Enhance document security with powerful encryption.
 - Work with PDFs on touch-enabled portable Windows 10 devices.
 - Enjoy the same navigation experience as in Microsoft Office 2016 or former versions.
 - Turn papers into searchable PDFs more productively.
 - Touch up and edit PDF content.
 - Streamline document reviews and collaboration.
 - Perform efficient searches.
-

The streamlined ribbon interface of Power PDF Standard

Support for popular internet browsers

Users can convert webpages into compact PDF files, complete with hyperlinks, from Internet Explorer, Mozilla Firefox and Google Chrome, with a push of a button.

Benefits of Power PDF Standard

Create and assemble PDF files easily from any application

Instantly create 100% industry-standard PDF files with security options that are fully compliant and compatible with all PDF viewers. Combine files and remove or replace pages with drag and drop ease. Create PDF files directly from your scanner with one-click scanning to PDF.

Archive important emails as PDFs

Save Microsoft Outlook and Lotus Notes emails and complete email folders as PDF files together with their attachments and with links preserved.

Enhance document security

Add passwords with secure 128-bit or 256-bit AES encryption and permission controls to PDF files to control document viewing, printing and modification.

Don't retype your documents

If you must work with PDF documents in other applications, don't waste valuable time recreating them – convert them. Complex layouts with columns, tables and graphics are faithfully reproduced in Microsoft Word, Excel, PowerPoint and Corel WordPerfect documents.

Manage and access your documents in the cloud

Save and access your stored documents in the cloud by connecting directly to Box, Evernote, Google Drive or Microsoft OneDrive. This gives you access to your documents anytime, anywhere through the Web or by the applications of supported mobile devices.

Perform smarter searches

Benefit from advanced search functions that list and highlight all instances of found words on the document, so you can locate them easily. Use the intelligent Looks Like Search™ capability to quickly find content like phone numbers, email addresses and Social Security numbers via an alphanumeric pattern rather than exact text.

System requirements

- A computer with an Intel Pentium 4, higher or equivalent.
- Supported operating systems:
 - Windows 10; 32-bit and 64-bit Editions
 - Windows 8.1; 32-bit and 64-bit Editions
 - Windows 8; 32-bit and 64-bit Editions
 - Windows 7; 32-bit and 64-bit Editions with Service Pack 1.
- 512 MB of memory (RAM), 1 GB recommended.
- 700 MB of free hard disk space for application files; additional space required for temporary installer files and for additional user interface languages.
- Sound card is optionally required for using the functionality of the supplied Text-To-Speech Engine and a noise-cancelling headset microphone is needed for using the Dragon Notes feature.
- Web access needed for product registration, activation, Dragon Notes and obtaining live updates for the program.
- Microsoft .NET Framework 4.0. If it is not detected, it installs with the product.

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements.
