# Nuance Dragon Professional Anywhere

Streamline repetitive and manual documentation processes, while deploying powerful enterprise speech recognition across the organization – all while saving time for IT staff and boosting productivity and efficiency for busy professionals.

## Feature matrix

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Dragon Professional Anywhere** provides cloud-hosted enterprise-ready speech recognition across your existing infrastructure of Windows-based devices, including virtualized and remote-access PCs | - The lightweight Windows client application downloads and installs in minutes and provides a secure connection to the Microsoft® Azure cloud-hosting infrastructure  
- Dragon Professional Anywhere can be installed on windows-based enterprise workstations or laptops in just minutes without the need for complex configurations  
- Support for thin client hardware, server virtualization as well as Citrix® environments. Allows for fast and easy integration into existing IT infrastructure. |
| **Anchor Focus Dictation** | Allows knowledge workers and field professionals to anchor the text transcription within a particular document, even as they have their cursor and mouse positioned in another window (i.e. when referencing a web-page). |
| **Delivers high recognition accuracy with the ability to learn and adapt to a variety of accents and environments, with a next generation speech engine powered by Nuance Deep Learning technology** | Ideal for diverse work groups and settings:  
- Optimized for speakers with accents, such as regional dialects  
- Dragon learns words and phrases used most to minimize corrections and adapts to the user’s voice while dictating |
| **Dynamic profiles provide professionals easy access from any computer location or thin client** | Administrators set and store user settings such as custom words, custom commands, and PowerMic settings with central administration through the Nuance Management Center (NMC):  
- Staff can start dictating with Dragon on any shared PC with no set-up required |
<p>| <strong>Support for virtualized environments</strong> | Supports Citrix XenApp®, Citrix XenDesktop® or Microsoft Remote Desktop Services, enabling users to dictate from workstations and thin clients. |</p>

<tbody>
<tr>
<td>Improve documentation productivity with fast, accurate dictation coupled with robust voice command capabilities</td>
<td>Ready to use, requires no speech profile training, includes accent detection and automatic microphone calibration.</td>
</tr>
</tbody>
</table>
| Fast and accurate dictation into office productivity applications, web browsers, and other standard Windows enterprise applications | Users dictate text anywhere they would normally type:  
- Use voice commands like “Next/previous field” to navigate between fields  
- Organize and share commands with other Dragon users and automate repetitive tasks |
| Empower knowledge workers and field professionals with a Nuance PowerMic III option, a high-quality, handheld microphone that makes it easy to dictate into and control applications | Ergonomic handheld microphone with robust dictation, programmable buttons and integrated mouse functionality means users can:  
- Dictate, edit, navigate and review documents and reports  
- Use the toggle button to switch dictation on and off quickly if they need to  
- Program buttons to automate steps such as advancing sequentially through fields in an intake form |
| Use custom voice commands to automate repetitive tasks and increase efficiencies | Execute multi-step processes to reduce repetitive steps:  
- Create custom voice commands to insert signatures or standard clauses into documents  
- Create time-saving commands to invoke multi-step tasks, such as opening a standard suite of applications to begin the day |
| Centralize administration through the Nuance Management Center (NMC) for significant cost savings | Provides powerful, yet easy-to-use centralized user administration to help organizations ensure efficient use of licenses and meet requirements for reporting accuracy:  
- Track employee usage of Dragon  
- Assign, switch or redistribute licenses via a license key  
- Manage or share customizations, including custom words, commands and auto-texts, across multiple users |
| Budget friendly pricing | Affordable, subscription-based pricing with little upfront capital investment makes it easier for firms and legal departments to plan budgets with predictable expenses. |
