# Nuance Dragon Professional feature comparison

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
<th>Dragon Pro Group 15</th>
<th>Dragon Pro Individual 15</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full accessibility/hands free usage</td>
<td>Accessibility access to enable full hands-free Dragon operation to open applications, navigate menus and utilize the mouse-grid to segment the screen position the cursor by voice. Useful for users with physical disabilities.</td>
<td>•</td>
<td>•</td>
</tr>
<tr>
<td>Flexible volume licensing programs designed to help organizations realize improved productivity at an affordable price</td>
<td>Ability to license as part of the Open License Program (OLP): - Reduce costs when purchasing volume licensing, upgrade assurance and technical support - Use single electronic download and single serial number for faster installation</td>
<td>•</td>
<td></td>
</tr>
<tr>
<td>Centralized administration through the Nuance Management Center (NMC) for significant cost savings</td>
<td>Powerful, easy-to-use central user administration to help organizations ensure efficient use of licenses and meet requirements for reporting accuracy: - Easy to track employee usage of Dragon - Easily assign, switch licenses or redistribute licenses - Manage or share customizations, including custom words, commands and auto-texts, across multiple users – Synchronize custom commands, administrative settings, data settings, PowerMic settings and more</td>
<td></td>
<td>•</td>
</tr>
<tr>
<td>Dynamic profiles to enable professionals to benefit from Dragon from any computer location</td>
<td>Administrators set and store user settings such as custom words, custom commands, and PowerMic settings with central administration through the Nuance Management Center: - Users can start using Dragon immediately with no training or setting adjustments required</td>
<td>•</td>
<td></td>
</tr>
<tr>
<td>Support for Citrix® virtualized environments</td>
<td>Deploy on Citrix XenApp® or Citrix XenDesktop® servers where the target application resides, enabling users to dictate from workstations that do not have Dragon installed on them</td>
<td>•</td>
<td></td>
</tr>
<tr>
<td>High recognition accuracy with the ability to learn and adapt to a variety of accents and environments, with a next generation speech engine powered by Nuance Deep Learning technology</td>
<td>Ideal for diverse work groups and settings: - Optimized for speakers with accents, such as regional dialects - Optimized for users working in noisy environments, such as an open office or mobile setting - Dragon learns words and phrases used most to minimize corrections and adapts to the user’s voice while dictating</td>

</table>
| Quickly and easily transcribe individual voice files to text          | - Transcribe individual audio files  
- Transcribe another single speaker's voice from pre-recorded audio files or podcasts                                                                                     |                      |                          |
| Create and manage both Step-by-Step and AutoText commands to streamline repetitive workflows across a work group or department | Create and distribute commands to multiple users for immediate productivity gains:  
- Step-by-Step commands to automate actions, such as launching applications or invoking hotkey functions  
- Create or import commands to automate tasks such as inserting your signature into emails  
- Include variable fields in body of auto-texts for form filling |                      |                          |
| Automate routine tasks and author custom voice commands to execute virtually any computer function within your applications | Create advanced automation tasks and enhance ease-of-use of applications with advanced voice commands:  
- Macro Recorder to record keystrokes and mouse clicks  
- Advanced scripting to voice-enable specific custom functions |                      |                          |
| Add powerful customizations, such as custom words and word lists, to meet business specific needs and manage and share them across the user community | Add custom words to meet business needs:  
- Import and export industry terminology or industry specific words  
- Add individual words or word lists  
- Once custom words or lists have been created and added, share them across the user community for additional productivity gains when dictating |                      |                          |
| Add custom words or word lists                                        | Add custom words or words lists to improve accuracy while dictating                                                                                                                             |                      |                          |
| Drive and manage documentation productivity for mobile employees or field workers across the organization with Dragon Anywhere Group | Support and manage Dragon Anywhere Group, Nuance's cloud-based professional-grade mobile dictation solution for iOS® and Android™ devices:  
- Employees can dictate documents of any length, fill out form-based reports or other paperwork and stay productive away from the office or in the field  
- Administrators can manage and distribute custom words and auto-text commands across the user community with NMC for additional productivity gains |                      |                          |
| Get documents done anywhere with Dragon Anywhere                       | Create documents of any length, edit and format and share them directly from your mobile device                                                                                                    |                      |                          |
| Empower professionals with a Nuance PowerMic option, a high-quality, handheld microphone with robust dictation, programmable buttons and integrated mouse functionality Nuance PowerMic Support | Makes it easy to dictate and edit documents with high recognition accuracy:  
- Includes integrated mouse control and programmable buttons to automate frequent steps when filling out forms, writing detailed case notes or filing reports  
- Perfect for on-the-go situations, with better accuracy than a built-in laptop microphone when working in noisy environments, such as those with ambient noise |                      |                          |
