Efficiently and accurately document the entire patient encounter.

Comprehensive and intuitive clinical documentation—with flexible workflows for regional hospitals.

**Challenge.**
How do clinicians tackle increasing clinical documentation volume, accelerate toward Meaningful Use, drive EHR adoption and prepare for future imperatives such as ICD-10 while decreasing costs and improving patient care?

**Solution.**
Dragon® Medical eScription RH is a comprehensive, web-based clinical documentation solution that simplifies the documentation process with automated, flexible workflow options designed for regional hospitals.

Clinicians can accurately document entire patient encounters using a mobile device or via standard dictation methods, generating structured data that can be delivered to the EHR. Dragon Medical eScription RH improves clinician productivity while enhancing the patient narrative, allowing them to focus on patient care.

Dragon Medical eScription RH Mobile allows physicians to create accurate patient documentation while on the go. Rather than navigating a complex and time consuming EHR during an exam, physicians can focus their attention on the patient instead, utilizing a mobile device to dictate entire or partial encounters. Documentation can be reviewed, edited, electronically signed and automatically printed or faxed—all with the touch of a finger.

**Key benefits**
- Reduces administrative costs.
- Requires minimal IT resource.
- Protects the patient narrative.
- Improves EHR adoption/usage.
- Supports varying hospital workflows.
- Reduces document turnaround time.
- Increases physician productivity.
- Economic and flexible.
- Complete MT onboarding program.

**Key features**
- Dictate, review, edit and eSign documents from mobile application.
- Generates structured data that can be delivered to the EHR.
- Manage the transcription and document workflow via a web-based portal.
- End-to-end workflow management.
- Dedicated client care.
- All inclusive solution components.
- Discrete data extraction from the clinical narrative.
All-inclusive solution components.

– **Dragon Medical eScription RH Mobile** gives clinicians the ability to fully document patient encounters using only a mobile device.

– **InQuiry** enables medical facilities to manage their day-to-day documentation workflow—efficiently and effortlessly.

– **InSync** automatically uploads dictations from digital recorders to the Dragon Medical eScription RH servers, effortlessly and seamlessly.

– **InTouch** allows health care professionals to dictate over the phone, increasing their comfort and productivity.

– **ShadowLink** automates secure interfaces between medical facilities and the Dragon Medical eScription RH servers, providing communication efficiency and protection.

– **ShadowPrint** automatically prints documents with a variety of setting parameters, a flexible feature that saves time.

**Nuance Transcription Services.**
Nuance Transcription Services allow providers to outsource a critical business process, reduce costs and improve the quality of clinical documentation, without additional investment in capital or resources. Partnering with Nuance gives providers an economical, flexible and customizable transcription option.

Nuance teams are always available to provide and scale to the level of support your organization needs—quickly adapting to new medical environments to provide the best transcription support available. The result is a combination of unparalleled consistency, quality and efficiency that can be measured in faster turnaround times, reduced costs and increased productivity.

**Nuance Onboarding Program.**
Nuance recognizes that our clients employ some of the best talent and how important it is to keep that talent. Nuance’s onboarding program allows medical transcriptionists (MTs) to transition from hospital-based positions to Nuance. When we enter into a new partnership with a hospital, 100% of the MTs are offered employment.

To learn more about how Nuance can help you improve financial performance, raise the quality of care, and increase clinician satisfaction, please call 877-805-5902 or visit [www.nuance.com/healthcare](http://www.nuance.com/healthcare).
