

CDI Interim Management

Sustain your CDI effectiveness with expert management resources.

Every day clinical documentation improvement (CDI) teams are challenged to do more with less. They're working to maximize efficiency and productivity with existing resources, taking on additional payers and more complex cases while initiating quality improvements.

CDI leaders must be available to analyze program and staff performance to deliver real change and measurable results.

Manage operational and strategic challenges

Nuance CDI Interim Management support assists organizations to solve operational and strategic challenges including:

- Leadership losses due to promotions, FMLA, LOA, and resignations.
- Small candidate pool for open positions due to geographic location or salary constraints.

The Nuance difference

We offer interim management solutions to augment CDI leadership personnel shortages. Nuance CDI management professionals are:

- Skilled at presenting metrics and trends that meet the communication needs of hospital leadership.
- Experienced in managing clinically trained RNs focusing on clinical documentation excellence.
- Trained in the use of all Nuance CDI solutions and Advanced Practice CDI methodologies.
