

Conversational AI solutions for pediatric care

Maximize your effectiveness with solutions optimized for the pediatric care setting.

Nuance solutions for pediatric care settings simplify and streamline how pediatricians capture and communicate patient stories, access real-time clinical intelligence to improve care, and use metrics to assess and document care quality.

Pediatricians and their care teams need the right technology to provide children with the best care. Unlike adults, technology used in pediatric settings must align with the pediatric models of governance and oversight and financial structure. Nuance pediatric solutions provide workflow efficiency and clinical intelligence to deliver unmatched outcomes.

Nuance pediatric care solutions

Dragon Medical One. Improve efficiency with this cloud-based HITRUST CSF-certified speech recognition solution that provides a consistent and personalized clinical documentation experience across solutions, platforms, and devices. Dragon Medical One gives clinicians access to a growing library of pediatric clinical calculators throughout the clinician documentation workflow—with no additional cost or software to install.

Dragon Medical Advisor with Pediatric Guidance. Enable pediatric point-of-care advice unobtrusively presented in the user's workflow, including impactful clinical information such as vital signs and lab values that can be turned off and on.

Nuance Surgical CAPD. Empower surgeons to make clinical documentation easy and effortless. Nuance Surgical CAPD learns surgeons' documentation patterns—improving efficiency immediately and over time—and allows them to create one-pass operative reports in less than 90 seconds.

PowerScribe One. Harmonize the applications radiologists use every day and make AI useful and usable within the workflow. By improving efficiency and accuracy, PowerScribe One gives radiologists more time to focus on the care teams and pediatric patients they serve.

CDE One. Improve CDI team efficiency, communication, and insight with documentation guidance offering CDI workflow and clarification management, code search, MS/APR-DRG capabilities and program analytics that create the core foundation of a successful CDI program.

“Dragon Medical One makes it easier to capture more thorough documentation. I’m definitely more satisfied using Dragon Medical One. I find I’m creating more detailed records since I can easily add little bits of information into the templates. It saves time.”

Mary Jo Shaw, MD
Pediatrician
Coeur d’Alene Pediatrics

Nuance Performance Analytics. Quality management solutions and services to help you measure, monitor, and improve quality, including hospital and physician quality measures reporting, performance analytics and improvement services, risk management, and patient safety reporting.

The Nuance difference

Engage physicians with high acceptance rates and capture documentation that drives appropriate reimbursement, accurate quality ratings and risk adjustment, shortens the billing cycle, and helps improve the denials management process.

Healthcare expertise. With 750+ proven clinical strategies and 30 years of CDI experience, we capture 3 billion lines of medical documentation annually and continue innovating for the radiology market, 20 years and counting.

AI technology. As a pioneer in speech-enabled virtual assistants and CAPD, Nuance is tapping into a secure multi-million-dollar HITRUST cloud infrastructure and harnessing advanced analytics to transform patient care.

Deep integration. 4 out of 5 facilities that use Epic, Cerner, Allscripts, and MEDITECH rely on Nuance every day. Our 200+ healthcare IT partnerships and deeply integrated solutions deliver optimized workflows and support better collaboration across teams.

To learn how our pediatric solutions can ease the documentation burden for your providers and enable them to focus more time on patient care, please call 1-877-805-5902 or visit [nuance.com/healthcare](https://www.nuance.com/healthcare).

“Not only are our radiologists feeling good about getting the work done faster, they can see they’re providing better service and better care...everyone is pleased that we’re not having the really long days where unread studies accumulate. They’re happy with the solution and have asked to use it more.”

Marla B.K. Sammer, MD
Associate Professor of
Pediatric Radiology
Texas Children’s Hospital

About Nuance Communications, Inc.

Nuance Communications, Inc., is a leading provider of voice and language solutions for businesses and consumers around the world. Its technologies, applications, and services make the user experience more compelling by transforming the way people interact with devices and systems. Every day, millions of users and thousands of businesses experience Nuance’s proven applications. For more information, visit www.nuance.com/healthcare or call 1-877-805-5902.
