

To make your job easier, we work harder on partnerships

Creating value for healthcare organizations through AI-powered solutions optimized for athenahealth.

Given all the platforms, devices, and unique demands of the people who use them, creating a seamless experience isn't easy. That's why we partner with athenahealth to make it easier for clinicians to document everything without ever taking their focus off what matters most—caring for their patients.

Deeply embedded across the continuum of care

Deep integrations between Nuance healthcare solutions and athenahealth solutions allow physicians to use conversational user interfaces to practice medicine and create effective clinical documentation—while maximizing the value healthcare organizations receive from their EHR.

- Full support for **Dragon Medical One** and **PowerMic Mobile**
- Dragon Medical embedded in **athenaClinicals** is accessible through any browser with no additional software to install or usernames or passwords to remember
- **Full transcription** and **partial dictation** with athenaClinicals workflows
- In-workflow physician documentation guidance through **Dragon Medical Advisor**
- Cloud-based CDI workflow management, documentation guidance, and encounter prioritization through **Nuance CDE One** and **Nuance CDE Triage**

Joint innovation and strategic development

Technical strategy is the backbone of our partnerships. That's why we engage in joint development and innovation projects—and here are just a few of the areas where we work alongside athenahealth so that we can deliver a seamless user experience:

- Solutions designed specifically to address ambulatory market needs
- Drive EHR adoption by improving usability and productivity through integrated cloud-based clinical documentation solutions
- Strategic partnership aligned with athenahealth's growth objectives

3 out of 5 facilities that use athenahealth use Nuance

Why athenahealth clients choose Nuance

- AI-powered solutions—including speech recognition, CAPD, and CDI—for athenahealth
 - Clinical approach and content backed by 25 years of expertise
 - Mobile effectiveness
 - Improved costs, better outcomes, and better overall experience
-

Delivering unmatched outcomes for hundreds of athenahealth clients and counting—here is just one example of what they’re saying:

“Beyond speech recognition, Nuance’s advanced NLU and CAPD technologies and unique integrations with athenahealth are critical to our physicians’ workflow efficiency.”

Dr. S. Luke Webster
Former VP and CMIO, CHRISTUS Health
