Fostering customer satisfaction, confidence, and success

Helping customers adopt, utilize, and optimize their solutions.

Making the most of your investment is our ongoing responsibility

Adopting, utilizing, and optimizing software solutions takes commitment, effort, time, and resources—from both you and Nuance.

We put a priority on customer success and satisfaction, recognizing that getting there takes more than user manuals, a support line, and a trouble ticket system. It takes more than sales team visits and business reviews. You need a dedicated, dynamic, and multi-faceted approach that listens to your concerns, looks at your data, and provides guidance that helps your radiology organization achieve its operational, financial, and care quality goals.

A consultative approach for the long term

The Nuance Diagnostic Solutions Customer Success Program is an integral part of our cloud-based solution offerings. With this model, you have a team of professionals dedicated to helping you for the long term. This may take different forms depending on the software solutions you have purchased, but some key elements are standard.

Our goal is to ensure your continued success with Nuance solutions. We will help you adopt, utilize, and optimize your solutions to demonstrate that you are receiving the value and outcomes you expect. We want to earn your continued business, and also position your organization as a leader that others can emulate.

Our strategy

Our experts work within your current infrastructure to help define where your organization is today and where you want to be tomorrow. Our expert customer success executives work closely with your key stakeholders to monitor, guide, and advise on optimization.

Your customer success executive

Customer success executives engage regularly with your teams post deployment. This dedicated representative works hard to understand your business priorities, evolving needs, and current issues. We help build a winning strategy through ongoing meetings (remote and onsite) as well as regular, written communications.

Key benefits

- Optimize workflows by applying industry best practices and standards, guiding your organization to success.
- Achieve successful physician adoption by emphasizing training and support strategies.
- Realize optimal patient outcomes, operational performance, and financial success by enhancing the use of Nuance solutions.
- Encourage ongoing collaboration and confidence and build a foundation for an organic, dynamic, and long-term partnership.
“The Customer Success program not only helped us optimize our use of the PowerConnect Actionable Findings solution, it also increased provider satisfaction and supported our patient safety goals. Working with our customer success executive, we determined the best approach for meeting our notification requirements, and made process changes that realized over a 5X increase in the number of messages tracked a month.”

Tammy Loveland
Administrative Assistant, Radiology Admin and Support
