Ambulatory Surgery Centers have unique documentation challenges. Ever-changing guidelines and rules make documentation even more challenging to capture and code appropriately, and surgeons are often dissatisfied with existing dictation/transcription and templates that don’t meet their unique needs. Incomplete and inaccurate operative reports often require clarifications, but complex physician schedules across multiple locations make it difficult for coders and office staff to follow up. The result: additional surgeon and staff time, a backlog of unsigned reports, and increased days in accounts receivable.

A better way to document surgical procedures
Nuance Surgical Computer-Assisted Physician Documentation (CAPD) enables surgeons to create a complete, fully compliant operative note in less than 90 seconds, eliminating transcription and disruptive coding queries and accelerating the revenue cycle. The solution guides surgeons through the documentation process by providing critical data and automatic prompts when clarifications are needed to capture the required level of specificity, so surgeons can quickly document pre- and post-operative notes correctly the first time. Simultaneously, a charge capture report, complete with suggested CPT and ICD-10 codes, is automatically generated and sent to the surgeon’s practice, so coding and billing for professional charges can also begin the same day.

Why Ambulatory Surgery Centers choose Nuance
Clarifying transcribed notes is time-intensive for both physicians and staff and results in an unsigned reports backlog and increased days in accounts receivable. Nuance Surgical CAPD ends the paper chase with guided documentation for over 50 medical specialties.

Key benefits
92% fewer coding queries
2 hr average time to bill for surgical procedures
85% voluntary adoption among surgeons

“With Nuance Surgical CAPD, my operative note is complete before the patient wakes up. Every time.”
Dr. Benjamin Ditty, Neurosurgeon

Achieve same-day billing at Ambulatory Surgery Centers
Complete, fully compliant operative reports in <90 seconds.
Why thousands of surgeons choose Nuance

Surgeons can spend up to fifteen minutes reviewing and responding to each coding query, and responses are often made after hours or at home. Nuance Surgical CAPD enables documentation to be captured right the first time which nearly eliminates queries and frees surgeons to spend more time on patient care.

- **Save time** by creating a specific and compliant report in less than 90 seconds, eliminating disruptive queries
- **Stop manually tracking professional fees** by automatically sending the procedure note and suggested charges report to the practice office to begin billing the same day
- **Access schedules, document, and e-sign anywhere** through a secure mobile app for iPhone and Android
- **Improve efficiency** as the system learns and adapts to your practice patterns and behaviors, keeping you up to date with ever-changing requirements

**Complete narratives 3-5x faster than typing with Dragon Medical**

Each patient is unique, and often a new narrative is required to explain the patient story. Nuance allows clinicians to use their voice to capture the patient’s story more naturally and securely by embedding Dragon Medical into Nuance Surgical CAPD. Dragon Medical is optimized for healthcare and provides a consistent and personalized clinical documentation experience through a single user voice profile.

**Ease the transition with eScription One**

For surgeons who may require transcription services, eScription One is a comprehensive, cloud-based transcription platform for clinical documentation that uses background speech recognition technology to increase transcriptionist productivity and reduce costs. The solution simplifies clinical documentation by offering healthcare organizations fully-automated processes and flexible workflow options to make it easier to capture entire patient encounters accurately.

**Contact us**

To learn how Nuance CAPD and speech recognition, backed by artificial intelligence, can ease the clinical documentation burden for your care teams and business office staff, please call 1-877-805-5902 or visit nuance.com/go/capd.

**What clients are saying**

"After we converted to Nuance Surgical CAPD, our expenses were reduced by over $40,000 a year. Our days in A/R have also been reduced by eight days on average, and our records are more detailed and thorough now. They have been very responsive to our needs and did a great job of helping transition our surgeons from dictating to their system. We have been very pleased with our transition."

**Scott Edwards**
Administrator, North Mississippi Ambulatory Surgery Center

"If you are looking to reduce your days to bill, consistent and clean OP notes, easy and efficient transcription access for your physicians, and a customer-friendly partner, you should consider Nuance Surgical CAPD."

**Debbie Murphy**
CEO, Greensboro Specialty Surgical Center
