Nuance PowerMic III microphone offers simplified, thumb-control operation for dictating, navigating, reviewing, and editing speech recognition generated documentation.

**Full Dictation Control**
Nuance PowerMic III advances clinician PC dictation to a new level, making it easier and faster to control voice recording, navigate and select fields in on-screen templates and standard reports, and move through recognized text reports for review and editing. In addition to providing complete dictation control, Nuance PowerMic III incorporates full-function, Microsoft® compatible, PC mouse capabilities into the microphone to reduce the need for care givers to move between the microphone, mouse, and keyboard.

With Nuance PowerMic III, clinicians can rapidly navigate report template fields, then record and use “voice fill-in” capabilities to insert recognized text into report templates. By combining an ergonomic hand microphone with PC mouse functions, clinicians gain new levels of dictation speed, ease-of-use, and productivity.

**Key Features:**
- USB connectivity for easy plug-and-play installation as well as eliminating the need for sound card-enabled PCs
- Unidirectional microphone with noise-cancellation ensures higher accuracy in even the noisiest environments
- Perfect companion to PowerMic Mobile, which turns smartphones into secure wireless microphones
- Support individual clinician preferences and workflows by offering a mix of PowerMic III and PowerMic Mobile

**Nuance PowerMic III Includes:**
- Your choice of either a 3’ or 9’ USB cable to suit your workflow
- Holster
- Anti-bacterial Surface for use in clinical settings.

---

**Flush, Angled Microphone Element**
for user comfort and optimal recording level/signal.

**Transcribe Button**
to recognize speech or send dictation to a transcriptionist automatically, when clinician does not self-complete.

**Primary Dictation Controls**
Record, Rewind, Play, Fast Forward, Enter/Select.

**“Track-Point” and Left/Right Click “Mouse” Tool**
to control the onscreen cursor, navigate and select functions.

---

**Data Sheet**
Healthcare Solutions
Nuance PowerMic™ III
High-quality physician dictation microphone with PC mouse functions.

Nuance PowerMic™ III is specially designed to enhance clinician productivity, providing ergonomic control of both standard dictation and speech recognition functions.
## Technical specifications

### Operating System:
Windows® 7, Windows 8.1, Windows 10

### USB:
1.1 or higher (USB port must be able to deliver min 500mA for power consumption)

### Supported Environments:
Citrix® and VMware are supported. For more information, please contact Nuance Technical Support.

### Frequency Response Input/Output
- **Microphone**: 20 - 16,000 Hz
- **Speaker**: 500 - 5,000 Hz

### Signal-to-Noise Ratio:
+70db

### Power Consumption
- **Current**: max 500mA (max playback volume)
- **Power**: max 2.5 VA (max playback volume)
- **Typical current consumption**:
  - Standby: 115mA
  - Recording (with LED on): 130mA
  - Playback at max volume: 400mA

### Operating Temperature
5° to 35° C (41°F to 95°)

### Storage Temperature
-25 to +70° C (-13°F – 158°F)

### Safety
- Voltage and power draw: 5 Vdc, 500 mA max

### Emissions – Class B
- EN 55032:2012 – Electromagnetic Compatibility of multimedia equipment Emissions requirements
- AS/NZS CISPR 32:2013 Electromagnetic Compatibility of multimedia equipment Emissions requirements
- ICE-003:2012 Information Technology Equipment (ITE) – Limits and methods of Measurement

### Compliance

## Manufacturers declaration of conformity

The devices complies with the following EU Directives:
- 2006/95/EC Low Voltage directive equipment safety,
- 2001/95/EC General Product Safety,
- 2014/30/EU Electromagnetic Compatibility,
- 2011/65/EU RoHS
- 1907/2006/EC Reach

Date of first affixing the CE mark 2015
