

Track chart deficiencies automatically

Identify and monitor chart deficiencies automatically.

Challenge

How can I easily improve my VA organization's reporting capabilities, accelerate revenue processes, and help meet The Joint Commission requirements?

Solutions

Nuance Clintegrity VA Chart Complete identifies and monitors chart deficiencies automatically. Integrated seamlessly with VistA and the Nuance Clintegrity solution suite, Nuance Clintegrity VA Chart Complete makes time-consuming, manual compilation of deficiency data a thing of the past. Nuance Clintegrity VA Chart Complete provides point-and-click reporting to track chart deficiencies, such as missing discharge summaries, history and physicals, and other critical information. Nuance Clintegrity VA Chart Complete also helps prepare for Joint Commission audits.

Tracks deficiencies automatically

Enhance your reporting capabilities to help meet Joint Commission

requirements with Nuance Clintegrity VA Chart Complete. This robust program, which is easily enabled through your existing web-based Nuance Clintegrity Coding and Compliance program, enables staff to track deficient information within the medical record with the click of a button.

Plus, because Nuance Clintegrity VA Chart Complete is integrated with VistA, you'll no longer need to pull deficiency information directly from VistA and manually compile reports for performance improvement activities or Joint Commission reviews. Nuance Clintegrity VA Chart Complete can instantly provide graphs of chart aging, delinquency calculations, and time-stamp deficiencies. And with its ability to identify clinical documentation deficiencies by provider, you can use Nuance Clintegrity VA Chart Complete data in the credentialing and clinical documentation improvement processes.
