

Nuance Document Imaging Professional Services

Remote Installation Services (RIS) Overview

AutoStore[®]

Version 7

AutoStore[®] v7

Overview

Remote Installation Services offer small, packaged services that are easy to order and require no Statement of Work. These are tailored to relatively small environments with a low degree of complexity.

Professional services that do not fit the description and limitations of the offerings in this brochure can be arranged through a bespoke statement of work. Please contact your Nuance account manager for such engagements.

Pre-Requisites

- NDI Professional Services provides a Site Survey document that must be completed accurately and returned to Nuance prior to the start of the engagement.
- Remote access to servers must be provided.
- All Nuance software must be downloaded prior to the start of the engagement.
- All servers and devices must meet the minimum specifications found in the product installation guide.
- Print device models and firmware versions, and must be compatible with Nuance products per the published supported device list

https://nuanceimaging.custhelp.com/app/imaginq/supported_devices

Deliverables

- Remotely delivered installation and configuration of AutoStore or AutoStore Express per the scope and limitations specified in the following table.
