

Migrating to Microsoft Office 365?

Transform your MFD into a Microsoft-enabled device with Nuance eCopy ShareScan.

If your organization is migrating to Microsoft® Office 365/OneDrive® for Business, have you considered how you're going to use your multifunction device or dedicated scanner to store and send documents? With the eCopy® ShareScan® application, users can authenticate with their existing OneDrive for Business or Microsoft SharePoint® account and select a folder to which the scan will be sent, or users can scan from their Microsoft Exchange account, saving time to get transactions processed, documents delivered, or to share content among teams.

Scan To OneDrive® for Business

- Create new folders in OneDrive for Business directly from the connector
- Manage your list of favorite scan destinations at the MFD for faster selection
- Login-based security for access control and to maintain audit trail
- Full text-searchable PDFs created as part of the scanning process

The result: fast and secure scanning to the cloud at the press of a button

Benefits

- Full audit trail of all scan activity
- Zonal OCR
- Auto-indexing
- Auto-preview
