eCopy ShareScan for Healthcare

Services that help you streamline and secure your clinical document workflow management.

eCopy ShareScan Services Overview
Nuance Professional Services can help healthcare customers maximize their investment in eCopy ShareScan. By using Nuance eCopy ShareScan to integrate your multi-function devices with your Epic EHR system, we can simplify the complexity of capturing documents and reduce human errors.

Professional Services Benefits for Healthcare
Nuance Professional Services is the ideal resource to quickly handle eCopy ShareScan solution installation and optimization. Our proven methodology of Analyze, Design, Build, Roll out, and Monitor ensures the right level of attention to your clinical document workflow environments.

Product Expertise - Nobody understands Nuance software like Nuance Professional Services.

Increased flexibility - Nuance Professional Services engagements are designed to minimize disruption to the clinical environment while maximizing your investment in eCopy ShareScan.

Professional Services for Healthcare

Challenge: Many hospitals talk about going paperless. Yet even organizations that have achieved late-stage Meaningful Use still process and print high volumes of documents daily.

Solution: Nuance Professional Services delivers secure, integrated clinical document workflow solutions to help you streamline systems and improve compliance and productivity and deliver cost savings.

Key Benefits
- Simplified engagement
- Cost effective
- Nuance services best practices

Key Features
- Maximize your investment.
- Streamline your clinical workflows.
- Customize to your environment.
What is the Nuance Professional Services eCopy for Healthcare Program?

A program designed specifically to install and configure eCopy ShareScan to capture documents commonly used in healthcare and route them to Epic EHR. Following secure best practices, our Professional Services Consultants will install eCopy ShareScan to capture documents from your MFDs and route them to the correct locations within Epic along with appropriate metadata and indexing. Just load the documents into the MFD, press the scan button and you’re done!

Services Included: 16 hours of Nuance professional services to perform the following

- Installation of eCopy ShareScan 6 on 1 server
- Configuration and integration with up to three MFDs
- Install and configure Nuance Healthcare Route “QuickConnect” for Healthcare to route documents to up to 3 locations in one Epic system

Pre-installation Requirements

- NDI Professional Services provides a Site Survey document that must be completed accurately and returned to Nuance prior to the start of the engagement.
- Remote access to servers must be ready.
  - eCopy installer must be downloaded on the server
  - Windows updates, software patches, .NET libraries and other pre-requisites as defined in the product installation guide must be installed on the server
- All servers and devices must meet the minimum specifications found in the product installation guide.
- Print device models and firmware versions, and must be compatible with Nuance products per the published supported device list https://nuanceimaging.custhelp.com/app/imaging/supported_devices

Constraints

- All services are provided in a single consecutive block of time.
- Workflows requiring scripts are out of scope
- Integration is limited to one Epic system
- Software installation and configuration for products other than eCopy ShareScan 6 are out of scope.
- Documentation and training are out of scope
- Services are limited to new installations.
- Server migrations, upgrades, or re-configuration are out of scope
- Services are only delivered during normal business hours (9:00 AM to 6:00 PM US eastern time)
