

Secure and Intelligent Print to Work Like Tomorrow

Minimize printer security risks with best-in-class, user-centric print management capabilities

KOFAX EQUITRAC

According to research firm Quocirca, 63 percent of businesses surveyed admit to experiencing one or more print-related data breaches. As such, it's imperative that businesses secure their printer networks as BYOD demands, regulatory pressures and the possibility of fines are heightened. Kofax Equitrac delivers the most powerful and flexible print solution on the market. It provides your organization with a wealth of unique features that minimize network security risks and the versatility needed to maximize print cost savings

and impact your bottom line. Its central print management system works across the most comprehensive range of MFP brands and models, business systems and mobile devices. Kofax Equitrac integrates seamlessly with the Kofax ControlSuite platform; this enables businesses to transform their entire enterprise into a secure, digital office experience that manages the way information is printed, captured and routed, thereby increasing workforce productivity.

KEY CAPABILITIES

Data and document security

Powerful security features including watermarking and user information/time stamps help businesses improve their security and compliance posture.

Extended mobile capabilities and additional hardware

With multiple ways of authenticating using a mobile device, including NFC/Bluetooth authentication, businesses can help secure print jobs from their mobile workforce.

Hybrid Print Control

Provides the versatility needed to maximize print cost savings and security, while minimizing network print infrastructure costs.

iQueue

Solves printing challenges by providing a single, intelligent print queue—for every

user and every printer. Workers can pick up the job at any printer using Equitrac Follow-You Printing.

Integrated print and scan

With integrated capture capabilities, further reduce print costs by providing employees with an alternative to printing.

Scalable, high-availability architecture

Offers architecture that scales easily in any environment, from small businesses to large enterprises with multiple offices and thousands of devices.

Ease of management

Completely new, web-based administration interface and installation wizard with template-driven configuration tools reduce the time spent configuring a print environment.

KEY FEATURES

- Centralized authentication: automated, secure and compliant print controls
- Mobile authentication for BYOD support
- Static watermark capability to improve security
- Intelligent print rules to help reduce costs
- Print audit trail and reporting to improve compliance
- Web-based UI for advanced usability

"We've seen a cost savings of more than 15% in total print expenses."

- Corporate Services Office Manager, Amcor
