

Copittrak Scan

Automate scanning workflows

Available as a stand-alone solution or in conjunction with the Eclipse Terminal, Copittrak® Scan enables users to route, track, and scan jobs through one convenient workflow. It lets users execute the job at the multifunction device and delivers the scanned document via the user's selected route. Most importantly, Copittrak Scan ensures every scanned image is accurately counted and sent to the Copittrak System Software for billing and reporting. It's convenient, easy to use, and precise for today's cost-conscious office.

Key Advantages

- Fully automated scan routing with multiple workflow options
- Platform independent with a simple user interface regardless of the device
- Convenient scan to document management including Microsoft SharePoint
- Automatically routes to user's inbox, desktop, or personal folder
- Zero management of templates and user directories required
