Print what you need.
Scan when you can.

Equitrac® Capture and Send
for Equitrac Office and Equitrac Express delivers advanced print, copy and scan functionality through a single interface at the MFP, empowering users with the choice to print only what they need and scan when they can. Combining powerful print and scan capabilities in a single application, Capture and Send turns MFPs into the essential tool to eliminate all non-essential paper in an organization—leading to lower costs, higher worker productivity and a greener workplace.

And because these integrated print, copy and scan capabilities are offered as part of a powerful Equitrac print management solution, businesses remain in control over information by applying security to both paper and electronic information, providing activity tracking for audit and compliance needs, and delivering visibility into costs and activity.
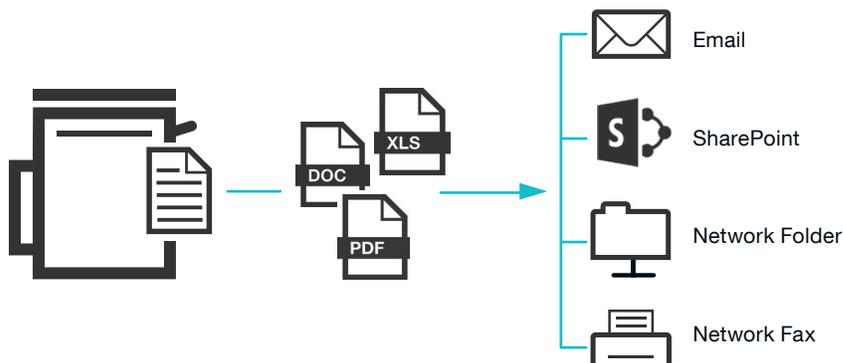

Equitrac Capture and Send
Available as an add-on component to Equitrac Embedded licenses, Capture and Send puts commonly used scanning capabilities at a user's fingertips. Accessed through the same software interface used for secure print release and other MFP functions, Capture and Send provides conversion of paper to electronic files and distribution of those electronic files to the most commonly used destinations— email, fax, network folders and Microsoft SharePoint.

Key Features.
– Delivers advanced print, copy and scan functionality through a single interface at the MFPs.
– Turns MFPs into the essential tool to eliminate all non-essential paper in an organization—leading to lower costs, higher worker productivity and a greener workplace.
– Provides activity tracking for audit and compliance needs, and delivering visibility into costs and activity.
– Combines an easy-to use interface with powerful OCR capabilities and options to send scanned documents to the most commonly used scan destinations.

Capture and Send lets users scan paper documents and send files to the most commonly used scan destinations.

NUANCE

Equitrac Capture and Send and eCopy ShareScan Feature Comparison

Features	Equitrac Capture and Send	eCopy ShareScan		
		Office	Suite	Enterprise
Integrated Print & Scan Client & Administration	X			
Print & Scan Activity Reporting	X	Scan Only	Scan Only	Scan Only
File Conversion to PDF, Microsoft Office and Image Formats	X	X	X	X
Integration with Microsoft Exchange		X	X	X
Distribution Options (# of included Nuance-developed Connectors)	4	9	14	30
Software Developer Kit and 3rd Party Connector Availability		X	X	X
Document Preview		X	X	X
Advanced Processing (Barcode recognition, Forms Processing, Batching)		X	X	X

Leveraging the industry's most accurate optical character recognition (OCR) technology, Nuance OmniPage, paper documents can be converted to PDF, searchable PDF, Microsoft Office formats and image formats. This ensures that information on paper is fully searchable and is ready to be incorporated into electronic document workflows and processes once it reaches its destination.

Integrated Scan and Print
Delivering print and scan capabilities in a single application benefits both users and administrators. Users benefit from accessing both functions through a single interface, eliminating the need to navigate through multiple menu options and providing a common look and feel for both functions.

Administrators benefit from a unified management and deployment process. Capture and Send can be installed either in a single server configuration, or scaled for larger deployments with the availability of clustering and load balancing to ensure uptime and throughput.

Equitrac Capture and Send combines an easy-touse interface with powerful OCR capabilities and options to send scanned documents to the most commonly used scan destinations. For more advanced document capture requirements— including integration with Microsoft Exchange, document processing capabilities and the ability to distribute scanned documents to any location—advanced document capture software such as Nuance eCopy ShareScan® can be accessed

from the Equitrac Embedded interfacethrough Single-Sign-On integration, providing seamless access to powerful scanning workflows.
