

Gain control over every printed page. At every printer.

Fleet-wide user authentication, secure document release and accurate cost allocation.

Features:

- Apply consistent control and usability across every networked printer and MFP
 - Easily integrates into existing network and works across devices types and brands
 - Flexible authentication techniques, including campus cards and smart cards for maximum convenience and security
 - Maintains device security during network or system outages through caching of user credentials
 - Intuitive and modern touch screen design and interaction reduces training requirements
 - Track print and copy costs to specific users, departments, budgets or funding sources
-

The Equitrac PageControl Touch provides control over every printed page on any printer or MFP on the network. Combining authentication, secure print release and advanced allocation workflows in a single interface, this hardware terminal option for Equitrac Office and Equitrac Express is perfect for printers and MFPs that do not offer embedded control panels.

With the flexibility to deploy on any networked device and featuring a common interface across any device brand or type, Equitrac PageControl Touch lets users print and copy responsibly and securely—when and where they need to.

Authentication

Equitrac PageControl Touch supports multiple authentication techniques, including username/password entry, PIN or Release Code, or ID card swipe using HID, Magstripe, Indala, etc.

Follow-You Printing

Once authenticated, users see their available jobs and can choose to print, delete, save or even adjust job attributes like changing from color to black and white.

User authentication and authorization.

Ensure proper device use and comply with existing security processes with flexible authentication techniques.

- Network username/password
- PIN or Release Key
- ID cards, including smart cards
- Campus cards

Billing Code Entry

Featuring a full soft keyboard and quick access buttons, the PageControl Touch makes detailed allocation of print and copy activity quick and easy, including billing code search and entry

Campus Cards

To support pay-for-print and print quota programs in schools and universities, PCT allows for authentication and tracking utilizing popular campus cards.

Reduce costs and waste.

Support cost reduction initiatives with powerful control over print and copy activity.

- Duplicate or unwanted print jobs can be deleted
- Job preview creates awareness of the costs of output
- Change to black & white output to lower per-page cost
- Ensure all activity is properly allocated
