

Nuance Equitrac Professional.

A cost recovery system for law firms that tracks all essential client service activities to support accurate, comprehensive billable revenue strategies, increase productivity of support staff, and lower IT spending.

Firms are constantly being challenged to provide the highest level of service to their clients, employing the right processes and technologies for increasing the productivity of their employees—all with a watchful eye on the impact to a profitable firm.

Equitrac® Professional meets these challenges by enabling firms to deliver a single cost recovery system to handle tracking and processing all your client service activities. Whether its walk-up copies or scans, printing, faxes or even courier expenses, Equitrac Professional quickly captures the right client/matter information from your T&B system, and automatically associates accurate costs to those services so your firm can make informed and profitable client billing decisions.

The secure Web Client gives authorized users complete visibility and control over all transaction activity, exceptions, disbursements, reporting and system maintenance. It is your personalized portal for effective cost recovery.

Location/Client/Matter	Count	Amount
Client: 0001; Client: 0001		
Matter: 0001; Matter: 0001	275	14.25
Totals for Client: 0001	275	14.25
Client: 0005		
Matter: 0010; Matter: 0010	52	5.35
Totals for Client: 0005	52	5.35
Totals for Location: Springfield	327	19.60

A robust set of pre-defined templates and powerful filtering and personal report definition tools provide you with the data you need—when you need it—to accurately chargeback costs or analyze activity for internal improvements.

Control. Productivity. Profits.

The winning combination for your cost recovery strategy.

Driving value with forward thinking cost recovery

Equitrac Professional goes beyond traditional cost recovery. Whether a you work in a single office or an international firm with offices around the globe, your support staff and lawyers need to capture client related costs from all devices and work product—including mobile phones, MFPs, emails, and electronic filings. Equitrac Professional seamlessly supports the widest array of productivity devices and supports a more mobile, highly engaged workplace.

Flexible deployment to maximize IT returns

Your firm is always adapting and looking for ways that technology partners can improve your bottom line. Since Equitrac Professional works with all major device manufacturers, it gives you the flexibility to deploy a cost recovery strategy that best fits your IT infrastructure, resources and budget. Whether you choose the Equitrac

TouchPoint Console or Equitrac's embedded solutions, your firm can capture all the copy, print, and scan client service activities in the firm.

Information that drives profitability

Using Equitrac Professional, your cost recovery strategy will be based on the most up-to-date, accurate, comprehensive and complete information. Through the creation of Equitrac Professional reports, your firm will have extensive details on the client activities associated with each matter—from page counts, page size, black & white versus color to courier expenses and the time spent on research. With this information, your firm is in complete control of which activities are billable or included in your AFAs.

Empowering productivity through intelligent technology

With Equitrac Professional, increasing staff productivity comes from technology that automates and integrates into your firms' processes. Using Equitrac Professional secure print, personalized roaming user profiles—with often used client matter codes available on any device in the network—provides fast, accurate client services tracking.

Advantages:

Accurate: Automates chargeback to specific client/matter with integration to all the major time and billing systems.

Integrated: Works with existing printers, MFPs copiers, scanners and fax machines.

Complete: Imports all disbursements with easy exception handling and approval capabilities.

Efficient: Preview, process and route documents into a secure print or Nuance image capture workflow.
